BlueSpring

Daily Report Management System

User Manual

Version 1.0 | April 2026

Introduction

BlueSpring Daily Report System is a web-based tool that allows staff members to submit daily work reports and enables administrators to track, review, and manage team productivity in real time.

The system is built on two user roles:

- Admin — full access to all reports, staff management, task assignment, and settings
- Staff — access to submit reports, view personal history, and manage account

The application is accessible at:

https://faazil-jpg.github.io/BlueSprinGDailyReport/daily.html

Note: The system runs in any modern web browser. No installation is required. Your data is saved in the cloud and accessible from any device.

Logging In

All users — both admin and staff — use the same login page.

Steps to Log In

- Open the application URL in your browser
- Enter your Username
- Enter your Password (click the eye icon to show/hide)
- Click Sign In

First time? Your username and password are set by the administrator. Contact your admin if you have not received your credentials.

Logging Out

Click the Logout button in the top-right corner of the navigation bar at any time to end your session.

Changing Your Password

Both staff and admins can change their password at any time:

- Staff: click Change Password in the left sidebar under Account
- Admin: go to Settings in the sidebar, then click Change Password

You will need to enter your current password before setting a new one. The new password must be at least 4 characters.

Staff Guide

After logging in as a staff member, you will see three items in the left sidebar: Submit Report, My History, and My Calendar, plus a Change Password option.

Submit Report

This is your main daily task. Use this page to log the work you have done each day.

How to submit a report

- Click Submit Report in the sidebar
- Select the Date — you can pick today, a past date (to backfill), or a future date (to plan ahead)
- Select your Overall Mood for the day from the dropdown
- Fill in at least one Task (see Task Fields below)
- Add any Notes or Blockers in the text box (optional)
- Click Submit Report — you will see a green confirmation message

Task Fields

Field	Description
Task Name *	Short name for the task (required)
Description	Longer explanation of what you did or need to do
Status	Not Started / In Progress / Completed
Priority	Low / Medium / High
Category	Type of work (Development, Design, Meeting, Bug Fix, etc.)
Hours Spent	Estimated time spent on this task in hours

Adding multiple tasks

Click the + Add Task button to add another task row. To remove a task, click the × button on the right side of that task row.

Editing a submitted report

If you need to update a report you already submitted, simply go back to Submit Report, select the same date, make your changes, and click Update Report.

Assigned tasks

Assigned by Admin: If your admin has pre-assigned tasks to you for a date, you will see a blue banner when you open that date. The tasks will already be filled in. You can update the status and add notes, but you cannot delete admin-assigned tasks. Submit as normal when done.

My History

View a list of all the reports you have ever submitted. Each report card shows the date, your mood, a summary of task statuses, and any notes.

- Reports are listed with the most recent first
- Tasks marked as overdue (past the date and not completed) are highlighted in red with an OVERDUE badge

My Calendar

Displays a monthly calendar view of your submitted reports. Each day cell shows a coloured label for each task status.

Colour	Meaning
Green	Task completed
Yellow	Task in progress
Blue	Task not started
Red	Task is overdue (past due date, not completed)

Use the left and right arrows at the top to navigate between months. Click on any day cell to see a detailed popup of all tasks for that day.

⚠ **Overdue alert:** If a day has any overdue tasks, the cell border turns red and shows a small warning badge. Make sure to update the status of these tasks as soon as they are complete.

Admin Guide

As an admin, you have full visibility over all staff, all reports, and all tasks. Your sidebar contains: Dashboard, All Reports, Calendar, Staff Management, Assign Tasks, Export CSV, and Settings.

Dashboard

The Dashboard is your home screen. It gives you an instant overview of the entire team's activity.

Statistics cards (top row)

Card	What it shows
Total Reports	All reports ever submitted by all staff
Today's Reports	How many staff have submitted today vs total staff (e.g. 3/5)
Tasks Completed	Total completed tasks across all time
Hours Logged	Total hours logged across all tasks

Alerts

Two automatic alerts appear below the stat cards:

- Missing submissions alert (yellow): lists staff members who have not yet submitted a report today
- Overdue tasks alert (red): lists staff members who have past-dated incomplete tasks, with a count of how many tasks are overdue per person

> ☑ **All clear:** If all staff have submitted today, a green All staff have submitted today's report message is shown instead.

Recent Reports table

Shows the 6 most recently submitted reports with quick task status counts. Click the View button to open a detailed popup for any report.

Today's Status panel

On the right, a panel shows every staff member with a green Submitted or red Pending badge for today.

Task Breakdown

At the bottom, a breakdown of all tasks across all time into three categories: Completed, In Progress, and Not Started, each with a progress bar.

All Reports

A full list of every report submitted by every staff member. Use the filter bar at the top to narrow down results.

Filter options

Filter	Description
Staff	Filter by a specific staff member
From / To	Filter by date range
Status	Show only reports containing tasks of a specific status
Search	Search by staff name or task name

Each report card shows the staff name, date, mood, task status badges, any admin-assigned badge, and a View button. Overdue tasks are highlighted with a red OVERDUE badge.

Calendar

The admin calendar works the same as the staff calendar but shows reports from all staff members. You can navigate by month and click any day to see a popup with all reports submitted for that day across the whole team.

Staff Management

Add, view, and remove staff accounts from this page.

Staff table columns

Column	Description
Name	Staff member's full name
Username	Login username
Department	Department or team
Reports	Total number of reports submitted
Last Report	Date of their most recent submission
Actions	Delete button to remove the staff member

Adding a new staff member

- Click Add Staff (top right of the page)
- Fill in Full Name, Username, Password, and Department (optional)
- Click Add Staff in the popup

- The staff member can now log in immediately with the credentials you set

Removing a staff member

Click the red bin icon next to a staff member. A confirmation dialog will appear. Their historical reports are kept in the system even after the account is removed.

> ⚠ **Important:** Removing a staff member deletes their login access permanently. Their past report data is preserved for your records.

Assign Tasks

Use this feature to pre-populate tasks for a staff member on a specific date. This is useful for assigning work in advance or setting up scheduled tasks.

How to assign tasks

- Click Assign Tasks in the sidebar
- Select a Staff Member from the dropdown
- Select the Date (defaults to tomorrow)
- Fill in one or more tasks using the same fields as the submit form
- Add any Notes for Staff (optional instructions or context)
- Click Assign Tasks

The staff member will see the pre-filled tasks when they open their Submit Report for that date. A blue Assigned by admin banner will appear. They can update statuses and add notes, but cannot delete admin-assigned tasks.

> ⓘ **Merging:** If the staff member already has a report for that date, the assigned tasks are added to their existing tasks rather than overwriting them.

Export CSV

Click Export CSV in the sidebar to download a spreadsheet of all report data. The file includes:

- Date, Staff Name, Department
- Task Name, Description, Status, Priority, Category, Hours Spent
- Report Notes, Mood, and Submission Timestamp

The file is saved as bluespring_reports_YYYY-MM-DD.csv and can be opened in Excel or Google Sheets.

Settings

The Settings page allows you to update your admin profile and manage system data.

Setting	Description
Full Name	Update the admin display name shown in the navigation bar
Department	Update the admin department label
Change Password	Opens the password change dialog
Delete All Reports & Staff	Danger zone — permanently deletes all reports and all staff accounts. Admin account is kept. Cannot be undone.

Danger Zone: The Delete All Reports & Staff button is irreversible. A confirmation dialog will appear before anything is deleted. Use with extreme caution.

Quick Reference

Staff — What can I do?

Staff Features
Submit a daily report for any date (past, today, or future)
Add multiple tasks per report with status, priority, category, and hours
Update or edit a previously submitted report
View all my past reports in My History
View my reports on a monthly calendar
See overdue tasks highlighted in red
View admin-assigned tasks and update their status
Change my password

Admin — What can I do?

Admin Features
See live dashboard with stats, missing submissions, and overdue alerts
View all reports from all staff with filtering and search
View team-wide calendar by month
Add and remove staff accounts
Assign tasks to staff for any date
Export all data to CSV
Update admin profile and change password
Delete all reports and staff data (danger zone)

Status Colour Guide

Badge / Colour	Meaning
Green — Completed	Task is finished
Yellow — In Progress	Task has been started but not finished
Blue — Not Started	Task has not been started yet
Red — Overdue	Task is past its date and not yet completed

Blue banner — Assigned by Admin	Task was created by the administrator

Tips & Frequently Asked Questions

Can I submit a report for yesterday?

Yes. On the Submit Report page, simply change the date to any past date. The system allows backfilling.

Can I plan ahead and submit for a future date?

Yes. Select any future date on the Submit Report page to log planned tasks in advance.

I submitted a report by mistake. Can I delete it?

Yes. Open Submit Report, select the date of that report, and click the Delete button (red, next to the Update Report button). Note: you cannot delete reports that were assigned by an admin.

What happens if I forget to submit on a day?

The admin dashboard will show your name under the missing submissions alert. You can still submit for that past date at any time by selecting the date in Submit Report.

Why is my task showing as Overdue?

A task is overdue when it was created for a date that has already passed and the status is not set to Completed. To clear the overdue warning, open the report for that date and mark the task as Completed.

Can I add more than one task per report?

Yes. Click the + Add Task button as many times as needed. Each task is tracked individually.

As an admin, can I edit a staff member's report?

Currently, admins can assign tasks to staff but cannot directly edit staff-submitted reports. Staff members can edit their own reports at any time.

The site is not loading. What should I do?

- Check your internet connection
- Try refreshing the page (press F5 or Ctrl+R)
- Try opening the site in a different browser
- Contact your system administrator if the issue continues
